MESSAGE FROM THE DIRECTOR

Happy Easter Holidays from Sentimental Energy. As Easter blossoms into our lives, it becomes more than just a season of renewal; it's an opportune moment to express profound gratitude and love to those dear to us and be a testament to the enduring power of camaraderie.

Amidst the spirit of celebration, I am thrilled to share some exciting news regarding our company's achievements in the first quarter of 2024. The expansion of our Kitengela Office marks a significant milestone in our journey as we extend our reach to better serve the vibrant community of Kajiado County. Since its inception, our Kitengela branch has been tirelessly working to cater to the needs of our clients, contributing to the sustainable growth of our company and I am delighted to report that since its inception, we have installed a total of 500KWp of solar capacity in the region, providing clean and reliable energy solutions to businesses and households alike. This accomplishment reflects our unwavering commitment to driving positive change through renewable energy initiatives.

Furthermore, I am pleased to share that we have forged several valuable partnerships in financing our solar C&I projects. These collaborations underscore our dedication to innovation and excellence as we continue to break new ground in the renewable energy sector. Together with our partners, we are poised to achieve even greater milestones in the days ahead.

As we celebrate Easter and reflect on our achievements, let us also reaffirm our commitment to serving you with integrity, passion, and excellence. Your trust and support have been instrumental in our success, and we are deeply grateful for the opportunity to journey alongside you.

~ENG. PAUL SIMIYU~
Managing Director

SOLAR WATER PUMPING

Access to clean water has been a major concern during our interactions with customers from the larger Eastern Region. This month, we have continued to make strides to address this challenge by undertaking two solar water pumping projects in Kitui County.

Solarization of boreholes and wells is a sustainable solution that allows for access to water while reducing energy costs through optimizing solar PV modules to pump water to areas of need; be it household or for irrigation.

SOLAR FINANCING PARTNERSHIPS

Our collaboration with financing institutions signifies a significant milestone for us, allowing us to further amplify our efforts to provide sustainable energy solutions to underserved regions. With this funding, we are poised to expand our reach and enhance our capacity to empower households and communities through access to clean and reliable off-grid solar products.

Through our financing models, we are empowering individuals and businesses to embrace clean energy solutions while alleviating financial barriers. Whether it's enabling households to benefit from solar home systems through flexible payment plans or supporting businesses in reducing their carbon footprint, our mission is to create positive change that resonates far beyond the bottom line.

DID YOU KNOW ?

Sentimental Energy has a branch in Kimilili town, located in Bungoma County, serving the Western block of Kenya. If you have any questions or need more information, please reach us at +254 720 007 165 or +254 795 513 899. We look forward to assisting you with your energy needs.

OUR CSR INITIATIVES

ST. MARY'S SOSIO SECONDARY SCHOOL

- As a company deeply committed to community welfare, we are thrilled to announce our involvement in the construction of an Ablution block at St. Mary's Sosio Secondary School in Kimilili. We firmly believe that every student deserves access to proper sanitation, fostering a conducive environment for learning. It is our privilege to contribute to the realization of this vital facility, particularly in supporting the needs of our female students.
- Furthermore, in collaboration with the Mukuru Promotion Centre, which has positively impacted over 6500 students through its educational programs, Sentec remains steadfast in its commitment to supporting the education of students from low-income settlements.

CLIENT TESTIMONIAL

Mr Kituto, a resident of Ngong in Kajiado County, who recently switched to solar energy at the beginning of the year, is reaping benefits in terms of energy cost savings and power reliability.

As part of our commitment to exceptional customer service, we make it a priority to regularly follow up with our clients to gather feedback on their solar systems' performance and ensure they are experiencing the promised benefits of switching to solar.

Take a look at Mr. Kituto's testimonial using this link: <https://acesse.one/Testimonial>

In terms of energy cost savings, my bills used to be around Kes 10, 000 – 12, 000. Recently, I got a bill of Kes 3,300.

KAKAMEGA INTERNATIONAL INVESTMENT CONFERENCE

As Sentimental Energy Ltd, we were proud to contribute significantly to the key discussions around agriculture and healthcare during the conference. We engaged key stakeholders and delegates during the conference to highlight our efforts to enhance agriculture and add value through solar water pumping initiatives. Additionally, we emphasize our long-term savings through solar financing options.

Our involvement in building sustainable healthcare infrastructure by solarizing medical facilities and providing power backup solutions was also a notable topic of discussion. We shared our projects in the healthcare sector, such as Dreamland Hospital Kimilili, demonstrating our commitment to advancing sustainable development in the region.
